Policy on Proprietary Material	v
Introduction	vii
Velocity Analysis	
Anisotropic migration velocity analysis: Application to a data set from West Africa (CWP-474) <i>D. Sarkar & I. Tsvankin</i>	1
Nonhyperbolic moveout inversion of P-waves in azimuthally anisotropic media: Algorithm and application to field data (CWP-475) <i>I. Vasconcelos & I. Tsvankin</i>	13
Migration & Imaging	
The downward continuation approach to modeling and inverse scattering of seismic data in the Kirchhoff approximation (CWP-472P) <i>M.V. de Hoop</i>	29
Linearized 2.5-D parameter imaging-inversion in anisotropic elastic media (CWP-431P) <i>S-K. Foss, M.V. de Hoop & B. Ursin</i>	45
Spectral-element modeling of fault-plane reflections and their sensitivity to stacking and migration errors (CWP-476) <i>M. Haney, R. Snieder & J-P. Ampuero</i>	65
Multicomponent Seismology	
Application of PS-wave moveout asymmetry in parameter estimation for tilted TI media – Part I: Horizontal TTI layer (CWP-465P) <i>P. Dewangan & I. Tsvankin</i>	77
Application of PS-wave moveout asymmetry in parameter estimation for tilted TI media – Part II: Dipping TTI layer (CWP-477) <i>P. Dewangan & I. Tsvankin</i>	97
Image gathers of SV-waves in homogeneous and factorized VTI media (CWP-478) <i>R. Al-Zayer & I. Tsvankin</i>	111
Plane-wave propagation and radiation patterns in attenuative TI media (CWP-479) <i>Y. Zhu & I. Tsvankin</i>	125

Joint P- and S-wave velocity reflection tomography using PP and PS data: An approach based on co-depthing and differential semblance in scattering angle optimization (CWP-473P) <i>S-K. Foss, B. Ursin & M.V. de Hoop</i>	143
---	-----

Data Processing & Interpretation

Data continuation in the presence of caustics: A synthetic data example (CWP-480) <i>A. Malcolm & M.V. de Hoop</i>	165
Geometrical-spreading correction for P-waves in layered azimuthally anisotropic media (CWP-481) <i>X. Xu & I. Tsvankin</i>	171
Seismic detection of a spatially-limited fluid pulse ascending a growth fault: Modeling and interpretation (CWP-482) <i>M. Haney, R. Snieder & J. Sheiman</i>	181

Scattering

Monitoring rock properties with coda wave interferometry (CWP-483) <i>A. Grêt, R. Snieder & J. Scales</i>	187
Time-lapse traveltime change of singly-scattered acoustic waves (CWP-484) <i>C. Pacheco & R. Snieder</i>	197
Extracting the Green's function from the correlation of coda waves, an alternative derivation based on stationary phase (CWP-467P) <i>R. Snieder</i>	215
Volcano monitoring with a natural source: Application to Arenal Volcano, Costa Rica (CWP-471P) <i>R. Snieder & M. Hagerty</i>	227
Volcano monitoring with coda wave interferometry (CWP-485) <i>A. Grêt, R. Snieder & R. Aster</i>	233

Multiple Suppression

Modeling and inversion of triply scattered data in the downward continuation ap- proach: Preface <i>A. Malcolm & M.V. de Hoop</i>	239
Modeling and inversion of triply scattered data in the downward continuation ap- proach (CWP-486) <i>A. Malcolm & M.V. de Hoop</i>	241
A formalism for the suppression of multiple diffractions (CWP-487) <i>R. Snieder</i>	267
